

No trip twice

How much could PROTEC² CLIQ™ save me in unnecessary resource use?

Access to your dispersed sites – A logistical challenge

If you're transporting staff to operate and maintain remote sites, the kilometres quickly add up. Picking up keys from, and returning them to, headquarters adds another layer of cost and complication. Factors include:

DISTANCES

How far are sites located from your headquarters?

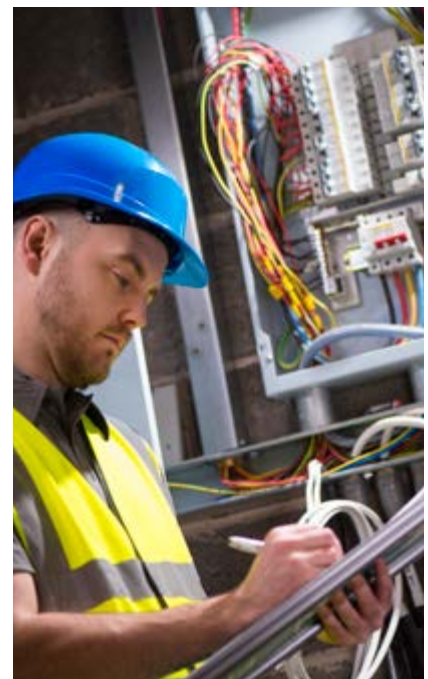

CONTRIBUTORS

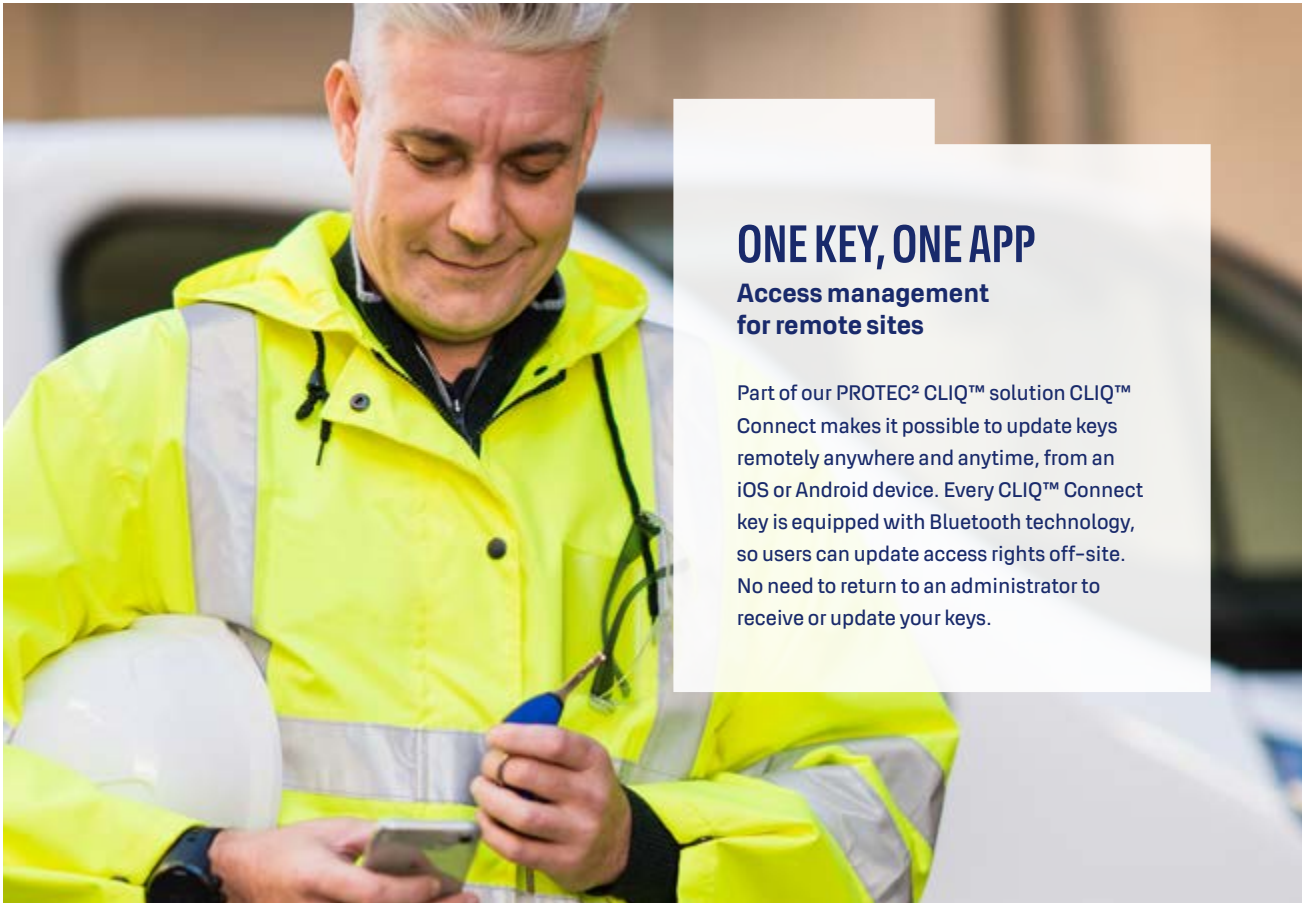

How many staff and third-party contractors need access to each site on a daily basis?

URGENCY

How quickly do they need to be there for repair or maintenance work?

ONE KEY, ONE APP

Access management for remote sites

Part of our PROTEC² CLIQ™ solution CLIQ™ Connect makes it possible to update keys remotely anywhere and anytime, from an iOS or Android device. Every CLIQ™ Connect key is equipped with Bluetooth technology, so users can update access rights off-site. No need to return to an administrator to receive or update your keys.

Introducing CLIQ™ Connect

Why go the long way round?

Transport efficiency with CLIQ™ Connect

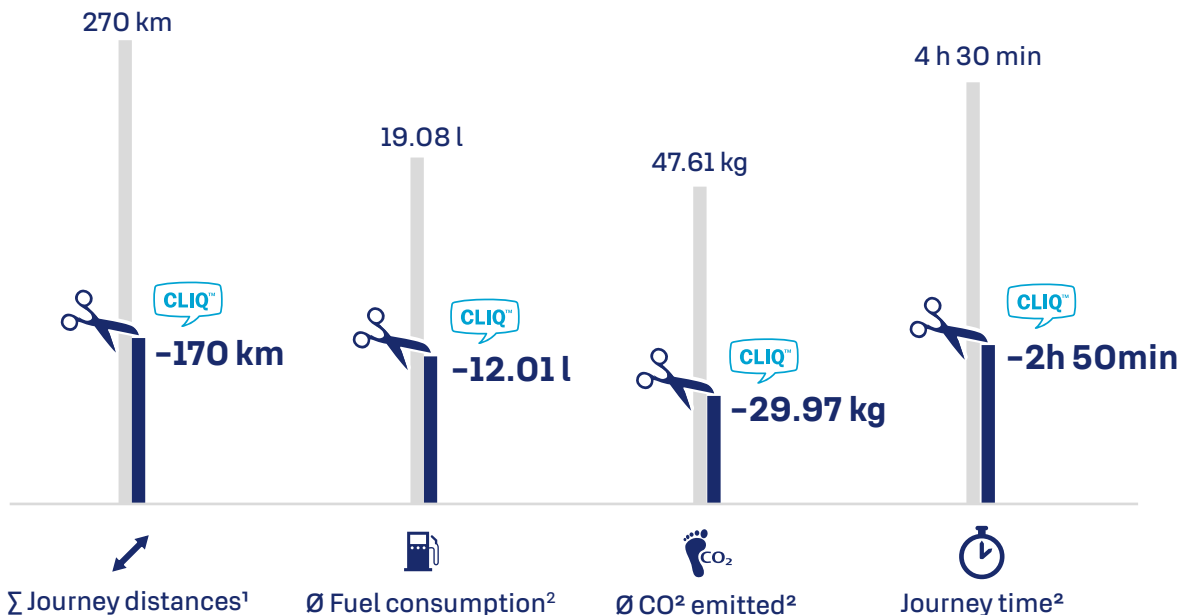

A Three Site Use Case¹

⊕ → Depending on site locations and frequency of drives, transport can add up enormously over the year.

TOTAL SAVED WITH DIRECT-DRIVE TO WORK SITES

compared to detours with stop-off and return to HQ

Standard key management
 Stop-off for pickup and to return keys to headquarters

CLIQ™ Connect access management
 Drive direct to the site – real time access rights by app

For Trust in professional solutions

PROTEC² CLIQ™ provides security that benefits your business, sustainability to benefit all of us.

Use less fuel

Cleaner air: with CLIQ™ Connect, you use less petrol by taking fewer trips to update access rights. No extra journeys to remote sites means lower fuel consumption.

Reduce your CO² footprint

Lower gas emissions: lower levels of carbon dioxides and monoxides, nitrogen oxides and hydrocarbons from car exhausts.

Environmental awareness

Your business promotes sustainability and conservation of our planet's resources — security for you and for everyone else, too.

Time and costs

Managing keys and cylinders with the CLIQ™ Connect app improves workflow efficiency and cuts transport and logistics costs.

Learn more about CLIQ™ Connect

We hope you find this PROTEC² CLIQ™ Environmental Friendly Checker useful. If you would like more information about our solution, click the button below and we will put you in touch with one of our local experts.

Your consultant will help you to:

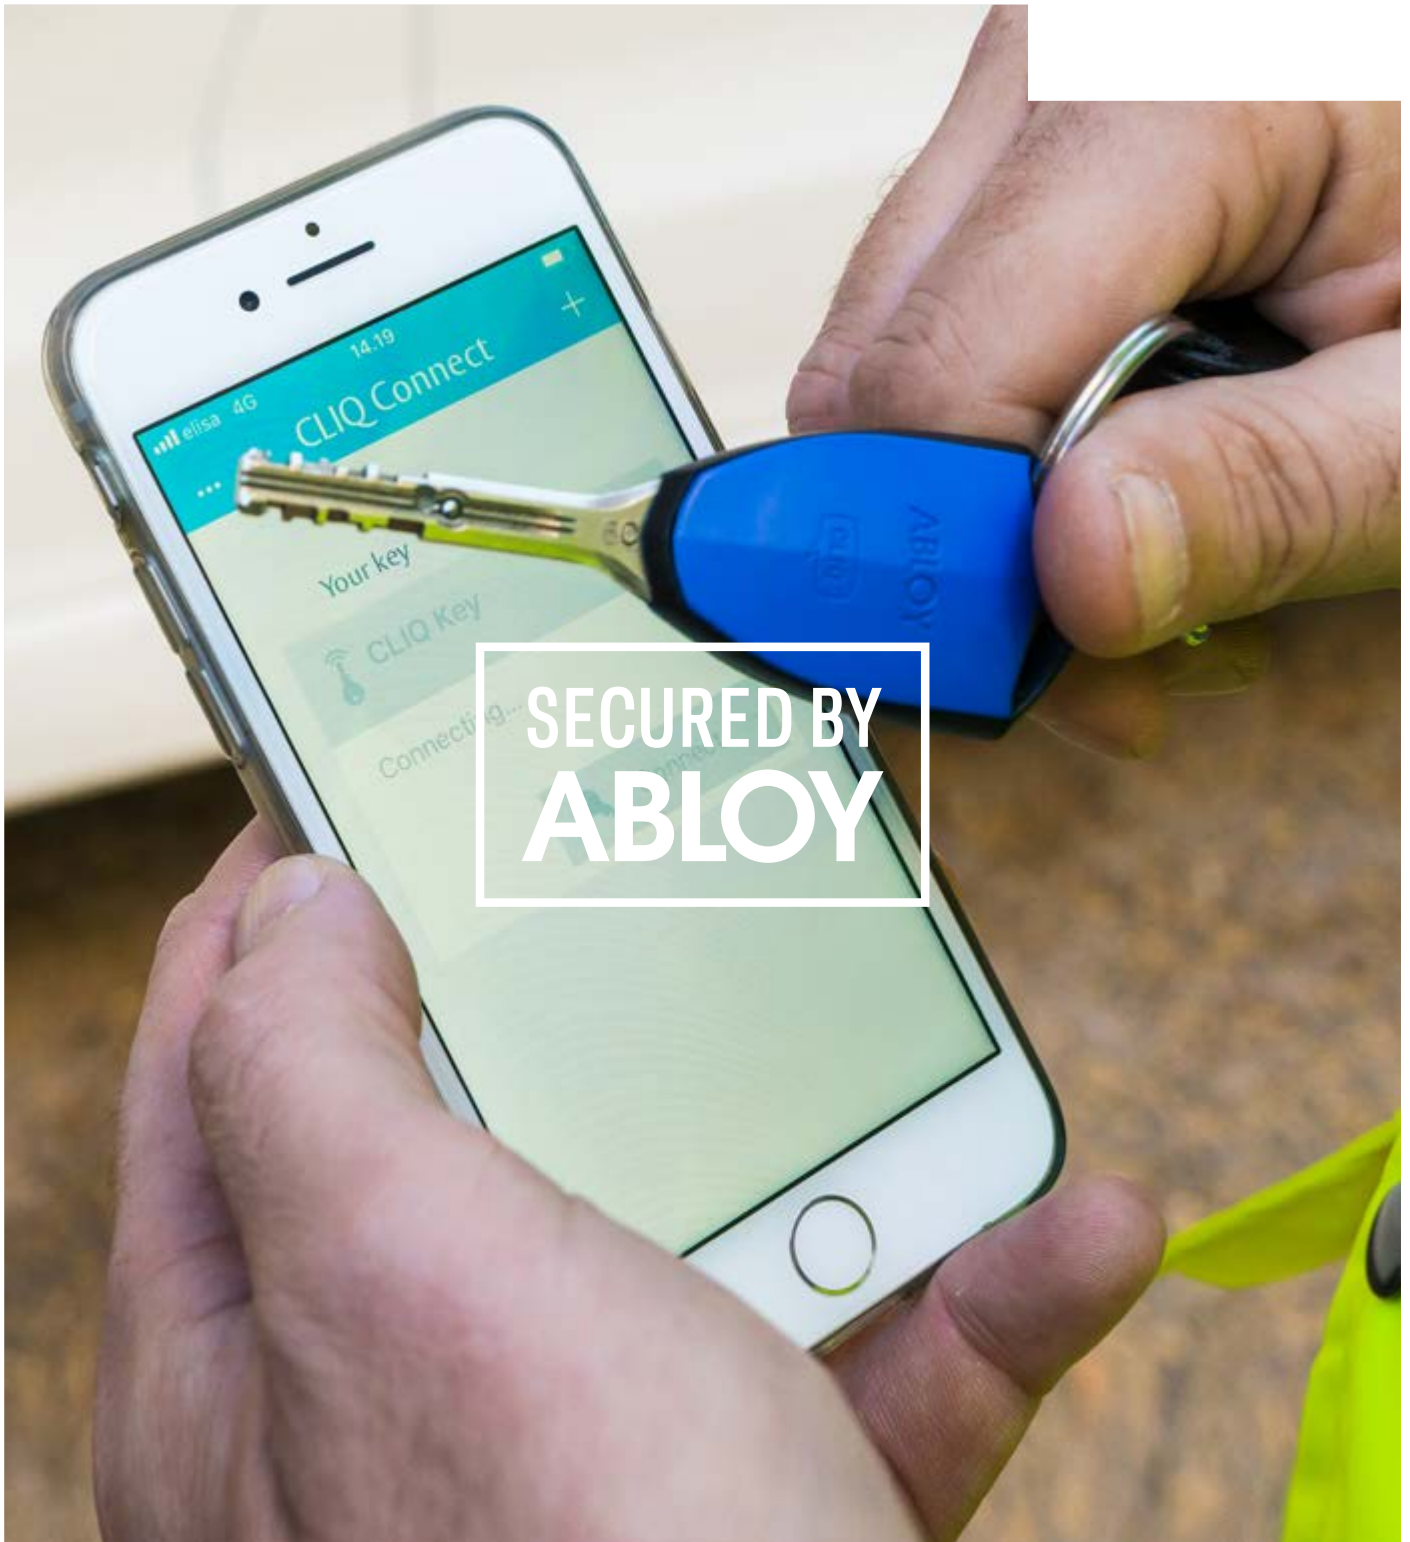

- Discover multi-layered security benefits
- Find an environmentally-friendly security solution
- Reduce operational costs, improve efficiency
